CERTIFICATE OF AUDIT

This is to certify that we have audited the accounts and records of the City of Nashua, New Hampshire, for the fiscal year ended December 31, 1942.

The report submitted herewith sets forth, in our opinion, the financial condition of the City as of December 31, 1942. The various Exhibits and Schedules, together with our comments, reflect the results of operations for the period under examination.

Respectfully submitted,

HAROLD G. FOWLER, Director,
Division of Municipal Accounting,
State Tax Commission.

DIVISION OF MUNICIPAL ACCOUNTING STATE TAX COMMISSION

CONCORD, NEW HAMPSHIRE

April 30, 1943

To His Honor, the Mayor, and the Board of Aldermen, City of Nashua, New Hampshire:

Gentlemen:

The audit and examination of the accounts and records of the City of Nashua has been completed for the Fiscal Year ended December 31, 1942, and we submit our report herewith consisting of various Exhibits and Schedules together with our comments and suggestions.

SCOPE OF AUDIT

We have made a complete verification of assets and liabilities recorded in Revenue Accounts, Non-Revenue Accounts, General Indebtedness including Sinking Fund, and the Trust and Investment Funds. An adequate examination of supporting checks, vouchers, resolutions and departmental records was also made during the period under review.

ACCOUNTING SYSTEM AND PROCEDURE

The accounting system and the procedure followed in the recording of the City's affairs adequately takes care of the City's needs. Internal check is provided under the present procedure. Some improvements have been made during the current year and some additional records have been installed particularly those for the purpose of recording Victory Tax withholdings.

EXHIBIT A-1

COMPARATIVE BALANCE SHEETS—REVENUE ACCOUNTS

Cash on Hand and in Bank—$74,775.23

Cash on Hand in the office was verified by actual count, and Cash in Banks was verified by reconciliation of Bank Statements obtained from the depositories. We have set forth in Schedule A-10, A-10 (2), A-10 (3), the cash position of the City Treasurer, the Tax Collector, and the City Clerk. We examined a large proportion of cancelled checks for the period under review which we consider is an adequate check. Some suggestions were made relative to endorsements; however, these were of a minor nature.

Taxes Receivable—$150,591.03

We examined the activity of the tax levies for 1937, 1938, 1939, 1940, 1941 and 1942. All unpaid property taxes were confirmed insofar as possible with the taxpayer, by direct correspondence. Out of approximately eight hundred (800) confirmations sent out, the returns

were proportionately good, and the results obtained in the collection of certain accounts and the clearing up of some odds and ends were accomplished as a result of this procedure.

Since 1939 taxes have been collected more promptly as is indicated in our Exhibit F, Item (2). A glance at this Exhibit shows that taxes outstanding at 12/31/40 were $250,804.69 and at 12/31/42 they were $150,591.03, a drop of $100,213.66.

We doubt whether or not the future collections on unpaid property levies for the years 1938, 1939, 1940 and 1941 will be very heavy. However, we note that these balances are offset by adequate reserves.

Temporary Loans in anticipation of taxes were reduced during the year by $50,000.00 (See Schedule A-15).

Accounts Receivable—Board of Public Works—$1,944.30

An analysis of the activity in this account indicates the charges made during the year amounted to $8,558.62 and credits and cash collections amounted to $9,461.48 which together with adjustments left a balance due the city of $1,944.30.

The following is the ageing of the account as set forth in Schedule A-12.

Year	Amount
1941	$624.18
1939	203.14
1938	84.80
1937	209.71
1936	65.16
Prior to 1935	757.31
Total	$1,944.30

The above accounts are getting older each day, and it is our opinion some of this can be collected if a little more attention is given to it.

The reserve for possible loss on these accounts appears to be adequate and amounts to $1,901.45.

Tax Titles and Tax Deeds—$42,547.75

These accounts show substantial reductions for the year, $8,795.96 and $6,805.18, respectively. In 1940, at the close of the year, the total was $59,863.53. At 12/31/42 the total was $42,547.75 or a reduction of $17,315.78, for the two-year period.

We examined the activity of the year under review. Tax Sales for the period amounted to $7,797.62. Cash collected on Redemptions amounted to $15,968.15. Tax Titles account was reduced during the year from $39,482.24 to $30,686.28.

Sales of Tax Deeded property in 1942 amounted to $7,288.05, and additions to the account were $482.87. The net reduction in the account for the year amounted to $6,805.18.

The activity in the accounts shows that considerable attention has been given to the collection and disposition of these assets and progress has been made.

It will be noted that a reserve of $9,043.52 has been set aside to take care of possible losses. Tax Titles and Tax Deeded property are always difficult to liquidate, but it is our opinion that the account is being handled satisfactorily.

Appropriation Overdrafts—$536.30

Edgewood Cemetery shows an overdraft of $536.30 at 12/31/42. Woodlawn Cemetery and Suburban Cemeteries show unexpended balances of $11.14 and $685.84, at 12/31/42.

Woodlawn Cemetery at 12/31/41 showed an overdraft of $1,108.57.

Activity in the Cemetery Accounts is shown in our Schedules C-10, C-11 and C-12.

Accounts Payable—$200,000.00

We refer to Schedule A-15 for a detailed explanation of Temporary Loans.

Accounts Payable have not been included in this Exhibit, but we have made an examination of the bills of 1942 paid in the year 1943, and in connection with this item, we make the suggestion that all departments render to the City Clerk soon after December 31st of each year an itemized list of bills contracted for and not paid on the last warrant in December.

As unexpended balances of appropriation accounts are affected by the procedure of handling bills, it is evident that this requirement would constitute an excellent internal check upon all departments.

Overlays—$56,601.10

An examination of the overlays of the years 1938 to 1942, inclusive, indicates as follows:

(1) The 1938 overlay shows a deficit of $2,812.29 at 12/31/42. However, in discussing this with the City Treasurer and Tax Collector this will change by reason of activity during this year. This is also our opinion.

(2) The 1939, 1940 and 1941 overlays are in excess of the unpaid taxes for the corresponding levies by $16,293.37.

(3) The 1942 overlay amounting to $13,616.98 appears to be ample reserve at this time but whether or not the liquidation of tax accounts will be as good during the war period is problematical. However, the reserve in Item (2) will help considerably.

EXHIBIT A-2

COMPARATIVE BALANCE SHEET—NON-REVENUE ACCOUNT

There is no activity reported in this account for the year ended December 31, 1942. The balances remaining to the credit of New High School Equipment $312.05 and Public Improvement $224.00, should be cleared as soon as practicable if they are not to be used for the above purposes.

EXHIBIT A-3

COMPARATIVE BALANCE SHEET GENERAL INDEBTEDNESS—SINKING FUND

An examination of this Exhibit indicates a decrease in bonded debt of $149,178.86 during 1942, together with a reduction in temporary loans of $50,000.00.

Sinking Fund securities decreased $5,000.00 as a result of a sale of Arkansas Road District Bonds.

Sinking Fund cash increased by reason of income in the amount of $1,149.48 and bond sales in the amount of $5,000.00. Other minor charges and credits included indicate a net change or increase in the fund of $1,178.86.

An examination of Schedule A-31 indicates that at least two securities are not paying interest and their value is questionable.

The above statements indicate that the City debt is approximately $200,000.00 less than a year ago.

EXHIBIT A-4

COMPARATIVE BALANCE SHEET—TRUST AND INVESTMENT FUND

We examined the bank accounts of Trust and Investment Funds at the Nashua Trust Company, Second National Bank, Indian Head National Bank and examined all the securities at the depositories.

We have included the Fred T. Burke Fund in this Exhibit, in order to show an all-over picture. Schedule A-41 shows the activity in this fund.

SUMMARY

Funds in Savings Banks	$55,492.58
Funds in Checking Account	4,071.59
Securities	321,269.00
Total	$380,833.17

Records of activity of Trust Funds are very well kept as to the recording of income to the funds. The City has not as yet completed its study of the funds to determine the original principal amount of all the funds and when this is done, it should be so recorded on the general ledger accounts of the City.

EXHIBIT B

RECONCILIATION OF REVENUE OF 1942 AND PRIOR YEARS

PRIOR YEARS

The City closed its books on December 31, 1941, with a Revenue Deficit of $19,247.13, as shown by the above Exhibit.

During the year 1942 the 1937 taxes unpaid were charged off in the amount of $8,870.03, thereby increasing this deficit to $28,117.16. Additional Taxes, however, were collected in the amount of $894.00 on prior years of 1938, 1940 and 1941. The final net result for the year with reference to prior year activity shows a Prior Year Deficit of $27,223.16.

Compared to the Prior Year Deficit of the preceding period it shows a net gain of $2,958.68.

CURRENT YEAR

The current year's operations closed with an unexpended balance of $23,476.47 less appropriation overdrafts of $2,100.76 or a net of $21,375.71.

Added to the above during the year were additional taxes (current) of $3,261.94 and excess of estimated revenue of $4,813.88.

The above indicates that the current operations for the year were closed with a Surplus of $29,451.53.

EXHIBIT C

COMPARATIVE STATEMENT OF APPROPRIATIONS AND EXPENDITURES

The above Exhibit shows in detail the results of the Appropriations and Expenditures for the year.

The statement shows that excellent control over appropriations was maintained during the current year.

The only items showing overdrafts were as follows:

Edgewood Cemetery	$536.30
Pensions	2,030.82
Water Supply	62.64
Printing and Stationery	7.30
Total	$2,637.06

It must be kept in mind, however, that this Exhibit is built up upon the cash basis and is subject to qualifications contained in our statement relative to accounts payable.

Anticipated Revenue for the year amounted to $109,177.88, fully detailed in our Schedule D-12. The City's estimate for the year was $105,000.00, consequently there was a gain of $4,177.88.

EXHIBIT E-1

COMPARATIVE STATEMENT OF TAXABLE VALUES

This statement makes a comparison between 1941 and 1942 taxable values. It indicates an increase of $80,020.00 in City Taxes in 1942. It also shows a reduction in the County tax of $70,045.34. The net difference indicates an increase in the taxes assessed of $9,660.07, after including School per Capita Tax and Overlay.

EXHIBIT F

COMPARATIVE STATEMENT OF REVENUE ASSETS, LIABILITIES AND SURPLUS

We call your attention particularly to this Exhibit for the reason that it is well worth studying. It indicates the progress made by the City during the past two or three years. We comment upon some of these points in our General Comments and Suggestions.

DEPARTMENTAL RECORDS

The greater part of our time was devoted to the departments of the City Treasurer, the Tax Collector and the City Clerk. However, we reviewed the departmental activities as recorded with the City Clerk and various accounts recorded in the General Ledger. All of these records appeared to be in accordance with sound accounting principles.

GENERAL COMMENTS

Officials' Bonds

We examined the Surety Bonds of the Tax Collector, the Treasurer, the City Clerk, Cashiers and Clerks, and found them in order.

Insurance on City Properties

Properties of the City have been appraised and a summary of Insurance coverage follows:

	Buildings	Contents	Total
Appraised Value	$2,582,525.00	$365,420.00	$2,947.945.00
Insurance Required Buildings—90%	2,079,000.00	333,500.00	2,412,500.00

	Amount	Premium
Policies Expire on January 2, 1944	$804,166.00	$6,438.02
Policies Expire on January 2, 1945	804,167.00	6,464.70
Policies Expire on January 2, 1946	804,167.00	6,332.85
Totals	$2,412,500.00	$19,235.57

Anticipated Revenue

It is our opinion that revenue in this class will be reduced in 1943. It is therefore important that City Officials be conservative when making this estimate.

The City has been conservative in the past few years in its judgment of this item as is evidenced by the record.

We look for some reductions in Auto Permit receipts and possibly in Interest and Dividend Tax receipts in 1943. Consideration should be given to these two items when making estimates of Anticipated Revenue.

Exhibit F

For the purpose of showing the trend of City affairs for the past few years, we have prepared Exhibit F, Comparative Statement of Revenue Assets, Liabilities and Surplus for three years, 1940, 1941 and 1942.

The important points shown in this Exhibit are as follows:

Item (1) Cash in 1942 is the highest point in three years.

Item (2) Tax Collections in 1942 show excellent improvement compared to the year 1940.

Item (3) Departmental Accounts Receivable are lower in 1942.

Item (4) Tax Titles have been reduced approximately $21,000.00 in three years.

Item (5) Tax Deeds show a slight increase of approximately $3,757.00.

Item (6) Reserves and Overlays have increased from $48,957.69 to $67,546.07—a further margin of safety.

Item (7) Temporary Loans in Anticipation of Taxes are less in 1942 by the amount of $100,000.00, compared to December 31, 1940.

Item (8) The years 1940 and 1941 show Deficit positions but 1942 begins to show a Surplus position.

Item (9) The year 1942 closed in the black, which indicates conservative policies were employed.

Item (10) Composition of Deficit or Surplus.

Conclusion

The foregoing statement (Exhibit F) indicates that conservative policies should prevail for the next few years if the City desires to develop and maintain a Surplus position.

In conclusion, we wish to express our appreciation of the many courtesies and the cooperation extended to us by all City Officials and their staffs during the audit.

Respectfully submitted,

HAROLD G. FOWLER, Director,
Division of Municipal Accounting,
State Tax Commission.

RESOLUTION

PERTAINING TO CITY EMPLOYEES ENTERING THE ARMED FORCES OF THE UNITED STATES

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Forty-two

RESOLVED, By the Board of Aldermen of the City of Nashua:

WHEREAS the defense of our principles and our shores demands that citizens and governmental bodies alike join together in presenting a common front to the enemy;

WHEREAS some of the employees of the different departments of the City of Nashua may be called into the armed forces of our country while others may deem it their duty to join said forces voluntarily;

WHEREAS the status of these employees with regards to their return to employment in the departments of the City should be protected in so far as it is reasonably possible;

NOW THEREFORE, be it resolved by the Board of Aldermen of the City of Nashua that the heads of the different departments of the City be and they are hereby advised that it is the opinion and recommendation of the Board of Aldermen that said employees should be regarded as being on leave of absence during their service in the armed forces and that upon their discharge whoever among them presents himself within sixty days from his discharge ready and fit to perform his duties should be re-employed by the department from which he had a leave of absence.

RESOLUTION

PERTAINING TO THE PAYMENT OF AN INCREASE OF THREE DOLLARS ($3.00) PER WEEK TO CITY EMPLOYEES CITY OF NASHUA

IN THE YEAR OF OUR LORD ONE THOUSAND NINE HUNDRED AND FORTY-TWO

RESOLVED, By the Board of Aldermen of the City of Nashua:

WHEREAS, it is an admitted fact that the cost of living has increased materially since January 1, 1942, and from all indications is going to continue in that direction.

WHEREAS, it is also admitted that the City employees should receive additional compensation to permit them to meet this increase in the cost of maintaining themselves and their families.

WHEREAS, a substantial number of tax payers of the City of Nashua have manifested by petition and otherwise that they favor an increase of Three Dollars ($3.00) per week for all City employees as of January 1, 1942, instead of the proposed bonus, so-called.

Now therefore, be it resolved by the Board of Aldermen of the City of Nashua, that his Honor Mayor Eugene H. Lemay be and he is hereby requested to make provisions in this budget for the year 1942 to pay every City employee an increase of Three Dollars ($3.00) per week in his compensation as of January 1, 1942.

Passed—March 24, 1942

WALTER B. MASON,
President.

Approved—

March 27, 1942, this Resolution vetoed by Mayor Eugene H. Lemay.

April 14, 1942, Resolution reconsidered by the Board of Aldermen over the Mayor's veto and passed.

Annual Report of Fire Commissioners

To the Honorable Mayor and Board of Aldermen:

GENTLEMEN:

The Board of Fire Commissioners herewith submit its report for the year of 1942.

The Board met on January 1st, 1942, and organized by electing W. A. Molloy, Chairman; E. I. Dubois, Purchasing Agent, and W. E. Grant, Clerk.

FIRE PREVENTION BUREAU

During the year a Fire Prevention Bureau was established so that the work of inspections by the various officers of the districts was coordinated and records of all inspections were made to the Central Headquarters. There were several individual complaints of hazardous conditions that existed, all of which were investigated and conditions corrected. The merchants and property owners have been very cooperative with the officers that have found minor complaints and in most cases have remedied them at once without further action. It is for the benefit of every citizen to eliminate these hazardous conditions. Fire Prevention Week was observed by the department from October 5th to October 12th, 1942.

FIRE APPARATUS

A new Pumper and Booster Hose Wagon was purchased during the year. This new truck replaced one of the older trucks which is being dismantled and the parts are being used to repair other trucks as the department was almost standardized on its equipment which made parts interchangeable.

The Board recommends that a new piece of apparatus should be purchased each year to replace the older equipment as the age of the apparatus ranges from twenty-five years to seventeen years. During the emergency it has been very hard to get replacement on some parts and there are some of them that we have not been able to purchase at all due to the age of the apparatus.

FIRE ALARM SYSTEM

The fire alarm system is in good working condition considering the age of some of the boxes which have been in place since the system was established over fifty years ago. These old boxes should be replaced and there are some districts beyond the system that should have new boxes due to the expansion of homes. During the emergency it is not possible to purchase any new boxes but we have been

able to get parts to keep the older ones in working condition. Some of the older boxes that were taken out were put back into working condition so that they can last for the duration of the emergency.

AUXILIARY FIRE DEPARTMENT

During the year a force of auxiliary firemen has been training and learning the rudiments of the regular fire force. This force is to be used in case of any grave emergency that might arise in the community. During the latter part of the year the necessary equipment has been gradually arriving so that when it is all received they will be almost an entirely separate unit that can be depended upon for extra help. They have been gaining actual experience by attending some of the larger fires and giving a helping hand.

We wish to take this time to extend our thanks and appreciation to His Honor, the Mayor, the Board of Aldermen, the Board of Public Works, the Board of Police Commissioners and the members of the Police Department, the many workers of the Red Cross, the employees of the Telephone Company and the Public Service Company, the Captain of the Salvation Army and his band of loyal workers, for all their interest and cooperation in our department.

We also wish to commend the officers and members of the department for the manner in which they have performed their duties and carried on their work during the year.

Respectfully submitted,

W. A. MOLLOY,
E. I. DUBOIS,
W. E. GRANT,
Fire Commissioners.

WORK REPORT FOR 1942

STREETS

We were forced to limit our activities during 1942 to the maintenance and tarring of streets. Due to WPB restrictions we were unable to secure asphalt for patching and new construction. The amount of tar obtainable was also limited. We had to use substitutes for patching the streets and also to postpone the rebuilding of Factory and Walnut Streets which we had planned for this year.

SEWERS

The fire at the Nashua Gummed and Coated Paper Co. storehouse on Bowers Street in November rendered almost useless a section of sewer on Bowers Street and Harbor Avenue. Melted wax, glue and tapioca have obstructed this line. Sewerage outlets of several homes and the Community Council building were affected. To date we have not fully succeeded in clearing out this sewer line.

Twenty-six new house sewer connections were installed during the year.

RUBBISH

Due to the general conversion of oil heaters to coal we have been forced to assign additional help and equipment to the collections and disposal of rubbish.

SEWER CONSTRUCTION

During 1942 we constructed 1,741.39 linear feet of sewer in connection with the South End Sewer project and Brookline Street. Twelve manholes and seven catch basins were also constructed.

Work on the South End sewer which was started as a WPA project was carried on during the year with City workers and a reduced crew of WPA workers. In July the WPA was discontinued in Nashua and we were forced to close this project until a more favorable time.

NEW BUILDING

The erection by our workers of an addition to the Tool House on East Hollis Street was completed during the year. This building which is one story high, one hundred seventy-one feet long and seventy-five feet wide, will provide storage space for our equipment.

Report of the Zoning Board of Adjustment

Nashua, N. H., February 1, 1943

To His Honor, the Mayor, and Board of Aldermen, City of Nashua, New Hampshire:

GENTLEMEN:

In completing the official yearly duties of the Zoning Board of Adjustment, the following report is hereby submitted for the year ending December 31, 1942.

Meetings and public hearings were held at frequent intervals throughout the year convenient to all petitioners and consistent with the number of requests and the duties of the Board.

Only after a complete viewing of the premises involved were decisions rendered, and all possible care was taken to protect the general welfare, health and safety of the community and also to see that fairness and justice prevailed to all parties concerned.

Owing to the war emergency the government, through its War Production Board, adopted restrictive limitation orders, which curtailed all non-essential building construction to a minimum.

Report of the Board of Examination of Plumbers

Nashua, N. H., February 1, 1943

To His Honor, the Mayor, and Board of Aldermen, City of Nashua, New Hampshire:

GENTLEMEN:

Submitted herewith is the annual report of the Board for the Examination of Plumbers for the fiscal year ending December 31, 1942.

The Board membership was composed of the following: Master Plumber, John P. Nash, Journeyman Plumber, Eugene L. Carrier, both men with many years of practical experience, and Fred L. Clark, City Engineer.

It was organized with Eugene L. Carrier as Chairman and Fred L. Clark as Secretary and Plumbing Inspector.

Regular meetings were held monthly and special meetings, to determine the fitness of applicants for plumbing licenses, were held as often as required.

During the year 1942 there were licensed by the Board, thirty-five (35) Master or Employing Plumbers and fifty-two (52) Journeymen Plumbers.

Throughout the year a total of two hundred twenty-eight plumbing inspections were made which represents inspections in one hundred forty-nine different buildings.

This was in keeping with the greatly decreased building program due to Federal Government limitation orders and priority requirements made necessary for the prosecution of the war effort. Practically all work done was of a replacement nature or minor new construction.

Report of the Sealer of Weights and Measures

To His Honor, the Mayor, and Board of Aldermen:

Gentlemen:

I respectfully submit to you the report of the Sealer of Weights and Measures for the year ending December 31, 1942.

May I at this time, publicly thank William H. Marcotte, Jr., Commissioner of the Department of Weights and Measures for the State of New Hampshire, for the fine cooperation which he extended to me after being appointed to this office. He sent me State Inspector G. L. Conant to show me the various adjustments on different types of scales which took about three weeks.

Again last November and December, Commissioner Marcotte loaned me the State-owned truck equipped with 100-gallon tank and pump and the services of Mr. Conant and Mr. Edgely to inspect fuel oil trucks. Incidentally, this is the first time that meters on fuel trucks were ever tested with 100-gallon tank by this department. A conservative estimate of fuel and range oil delivered in the City of Nashua by metered trucks from bulk plants is 10,000,000 gallons. (Fuel oil used by manufacturing plants not included.)

The inspection and adjusting of these meters resulted in a saving to the public and to the dealers of approximately $5,000.00 per year.

I wish to thank William H. Tolles and the Board of Public Works for the use of the tool house and City yard while we were inspecting these trucks.

A summary of the activities of the department follows: Inspections from January 1 to September 4, 1942, were made by Mr. Joseph Deschamps who is now serving in the armed forces of the United States. From October 13 to December 31, 1942, they were made by me.

Report of the Park - Recreation Commission

SUPERINTENDENT'S REPORT

To the Park-Recreation Commission:

GENTLEMEN:

Owing to conditions brought about by the war, the year 1942 was exceptional in many ways. Supplies and equipment were much higher in price and difficult or impossible to obtain. However, by anticipating these conditions and buying in advance, we were able to carry on without any serious handicap. Labor was also a problem, but as most of our employees were middle-aged or older they were not taken either by the draft or industries.

The skating season was short and broken up by unfavorable weather conditions. We operated five rinks as in previous years, but the ice was poor at Atherton Avenue and Ledge Street due to labor shortage and poor weather conditions. The water supply was inadequate at North Common. At Marshall Street and South Common the ice was very good. A little over $900.00 was spent in January and February, and costs in December brought the total to $1,146.38.

Robert Dion of the high school faculty was employed as Recreational Director and conducted the playgrounds and swimming pool very successfully. Most of our playground equipment was nineteen years old and in very bad condition. We succeeded in locating some equipment which could be purchased without any priority and replaced our old wooden slides with five all metal rust proof slides. We also purchased thirty rubber covered safety swings in place of the old ones, which were so badly worn as to be dangerous. Much small equipment and twenty-one nursery chair type swings for the little tots were also obtained. The total cost of new equipment for the playgrounds was $1,244.86, and the entire cost of operating the playgrounds was $3,356.35.

The swimming pool was well taken care of by William Sweeney of the junior high teaching staff. Two life guards looked after the safety of all and gave instructions in swimming and life saving to the little ones. A new 16-foot water slide was installed which proved very popular; also a new diving board was much appreciated. New equipment here cost $187.55, and the total cost was $1,652.95.

Holman Stadium revenue fell off because of the fact that few baseball teams operated during the summer, and because of an arrangement with the school department so that no rental fees were charged for any of the sports. In the past the major source of revenue to the stadium has been from school sports.

Mayor Lemay, at the suggestion of the Commission, installed an excellent night lighting plant to be used for all night sports and other evening events. This was paid from funds other than the Park Commission's. Total operating cost of the stadium was $4,684.98.

Our flower beds were the best ever, and were filled entirely from our own greenhouse. However, we found that we did not have sufficient growing space and availed ourselves of the opportunity to purchase a 20 ft. by 40 ft. greenhouse from Mrs. Irene B. Blunt for $200.00. This was in very good condition and will be erected next year.

General maintenance consisted of the care of all lawns, nurseries, flower beds including the City Hall grounds, pruning, spraying and other insect control on all trees and shrubs, not only on our parks but also on the streets and highways; operation of the greenhouse and repairing and painting all equipment.

Total expenditures for all branches were $22,977.83, and we finished the year with a balance of $183.13.

I feel that it would not be appropriate to close this report without a word of tribute to our late Commissioner, Edward H. Labine. "Eddie" Labine was one of the finest men I have ever worked under, a square shooter in every sense of the word. He was deeply interested in all phases of our activities and especially in the Holman Stadium. A busy business man, serving on this Commission without compensation, he gave unsparingly of his time and energy to promote the welfare of the department.

Respectfully submitted,

WM. R. KIRKPATRICK.

Report of the City Solictor

May 26, 1943

To His Honor, the Mayor, and Board of Aldermen:

Gentlemen:

During the year 1942 I performed to the best of my ability all the duties of my office such as advising the different city officials, drafting resolutions, ordinances and a great number of deeds covering tax-acquired property disposed of by sale.

I continued to prosecute criminal cases in the Municipal Court and represented the City in suits in our Superior Court.

Respectfully submitted,

EDWARD J. LAMPRON,
City Solicitor.

Report of the Airport Commission

Nashua, N. H., February 1, 1943

To His Honor, the Mayor and Board of Aldermen, City of Nashua, N. H.:

GENTLEMEN:

Following is the annual report of the Airport Commission for the year 1942.

Since Pearl Harbor, airport operations have from necessity become more involved, and Nashua like all other cities with airports throughout the country has been confronted with special, precautionary wartime problems to meet and solve to conform with drastic Federal Government regulations.

Protection from unauthorized flying and enemy sabotage has been met by the establishment of a twenty-four hour armed guard service, which is composed of pilots and mechanics operating at the field. Extra fire protection has been added and special signal and communications services installed.

Previous operations were primarily of a civilian nature and more or less local, but during the past year the airport has been utilized for a strictly one hundred percent military program, that of training Army and Navy men to become pilots.

Nashua has a fine airport, seventy percent of the cost of which came from the Federal Government. It is greatly to the City's credit that we are in a position to cooperate with hundreds of other airports in the country in the immense program to turn out thousands of pilots for the Armed Forces. Never before has Nashua's airport been more fully utilized.

As civilian flying is out for the duration many plane owners have disposed of their ships and one of our former sources of income, that of hangar rental, has been considerably reduced; however, under the new Government regulations we were able to operate during the year within our budget.

Our Airport Manager, Lt. Arthur A. Goldsmith, is under contract with the Civil Aeronautics Administration to conduct primary, secondary and cross country flight training courses.

Ground school training is conducted at St. Anselm's College for the primary and secondary courses, and ground school classes for the cross country courses are conducted at the airport.

These courses are from eight to twelve weeks' duration and the average number of students has been thirty-seven. There were em-

ployed seven pilot instructors, five airplane mchanics to service and maintain the planes and a clerical force of three to attend to the administrative duties. All male personnel are enlisted in the Army Air Forces.

Throughout the year 1942 there were 133 students who received their training here which represents 4,199 hours of flying time. Since the establishment of an approved flight training school here 325 have completed their training.

All training programs which were conducted here were closely supervised by Federal Government officials who have had the full cooperation of the members of the commission.

Owing to the fact that there has been strict enforcement of safety regulations and proper maintenance of the equipment, there were no serious accidents resulting; this reflects great credit upon the instructors and mechanics.

These programs have had to be limited to the capacity of existing facilities, yet we anticipate even greater activities in aviation following the war, which will require more hangar space and further development of the field.

Following is the Financial Report:
